Our legal basis for collecting, using and sharing information

The main legal bases we rely on under the General Data Protection Regulation (the UK GDPR) when we process employee information are as follows:

It is necessary for us to perform a task which is in the public interest or to exercise our official duties as a school
This broad legal basis is applicable to almost all the processing we do involving personal data.
It is necessary for compliance with a legal obligation

This is applicable where a specific law requires us to collect or share personal data This includes sharing data with the Department for Education (DfE), Her Majesty's Revenue and Customs (HMRC) and HM Courts and Tribunal Service.

It is necessary for the performance of a contract
This is applicable when we enter into a contract with our employees.
The data subject has given their consent
<p>Consent is not required for most of the processing we do, however, there are occasions when we ask for consent. For example, if we want to publish your photograph (headshot) on our website, in social media or on marketing material or collect your fingerprints to provide you with our cashless catering or library services.</p> <p>Where we are processing your data with your consent, you have the right to withdraw that consent. If you change your mind, or if you are unhappy with our use of your personal data, please let us know by contacting the school office.</p>
The processing is necessary to protect the vital interests of the data subject or someone else
This is applicable where a person's life could be at risk and we need to share or make available information to help them. This could involve sharing serious allergy information with other staff, paramedics (or other medical professionals), or other information requested by the police or social services, to assist them in their enquiries to protect that person.
The processing is necessary for our legitimate interests as a school or the legitimate interests of a third party
This is applicable where the processing is not required by law but is of clear benefit to the school or the data subject; there is limited privacy impact on individuals and the individual reasonably expects us to use their data in this way. This legal basis is not relied upon where the school is processing the data to perform its official tasks.

When we process '**special category**' data, we must have another legal basis. Special category data is personal data which reveals a person's *racial or ethnic origin, political opinion, religious or philosophical beliefs, trade union membership, genetic data, biometric data (such as fingerprints), health, sex life or sexual orientation*.

The main legal bases we rely on when we process this type of data is as follows:

The data subject has given explicit consent
This is usually applicable where we ask for health, dietary information or biometric data (such as fingerprints).

The processing is necessary for performing any right or obligation which is imposed on the school in relation to employment, social security and social protection law (e.g. safeguarding individuals at risk; protection against unlawful acts; prevention against fraud)

This is usually applicable where we are performing our duties under employment related laws e.g. health and safety, equality or tax or where we have taken action to safeguard individuals at risk.

It is necessary to protect the vital interests of any person where the data subject is physically or legally incapable of giving consent

is could be relied upon in situations where someone has become seriously ill on our premises and we are asked by medical practitioners (such as paramedics), to share information we know about that person's health or allergies.

The processing is necessary for the establishment, exercise or defence of legal claims

We may share or use special category data where legal action is being considered or underway.

The processing is necessary in the substantial public interest

is may be relied upon in circumstances where our processing is necessary to safeguard children or others at risk or where we respond to requests from the Police or law enforcement bodies, to assist in an investigation to prevent or detect an unlawful act.

The processing is necessary for the assessment of the working capacity of the employee

This will be applicable where an employee has been absent from work due to illness or injury, and we need to assess whether they are fit to return to work.

This list is not exhaustive.
