

St. Mary's Catholic Primary School

Educate Protect Love Serve

Design & Technology Intent

Through our teaching of Design & Technology at St. Mary's, we aim to ensure that children:

- Have the opportunity to learn about and experience the full range of content areas from the National Curriculum, including: Using tools, Textiles & Structures, Food Technology, Mechanisms, Electronics and Plan, Design & Evaluate.
- Can make links between curriculum areas such as history, science, maths and art.
- Learn about what it means to be a designer and use these skills in their lessons.
- Learn about famous current designers and those from the past whose designs or inventions were historically significant.
- Have the chance to be creative; to plan test and try, evaluate and improve their ideas.
-
